

1 February 2016

Dear Parents/Carers

Welcome to 2016, we are looking forward to great year with your child. A more detailed letter outlining units of work and activities we will be undertaking this semester will be sent home in the next weeks. Heads up we will be putting a stall in this year's Southeast Harvest Festival.

This week along with a homework page, your child will bring home a small laminated strip. This strip has the web address, password and login for the 3 online websites your child is able to access from home. The three sites are IXL Math Broulee Public School, Ideal Resources and Study Ladder.

Our school has paid for the rights to these sites and they are available free of charge to families of Broulee Public School students.

To play the games on ideal resources, your computer will need adobe flash drive, which can be downloaded free of charge. Simply google adobe flash player and download.

Also in IXL, the grades often do not match your child's year at school. I ask the students to start at Year 2 and complete those levels before moving onto the next year.

If possible, please take time to look at these sites with your child. We will set homework using these sites throughout the year.

If you have any queries, do not hesitate to contact us.

Regards

Janelle Morgan and Gee Hounsell  
Class Teachers
